

# Family Quality of Life Research

## What do we want to know?

The overall goal of this study is to gain a better understanding of how family quality of life may change across the lifespan of individuals with autism.

## Who are we looking for?

We are looking for **any main caregiver** of a child with autism. The main caregiver may be a parent, a sibling, a spouse, a life partner, or other family member.

## What is involved?

Participants will complete a phone interview, and an online survey. The total time commitment is approximately 60-120 minutes. For this study, **an amazon.ca gift card will be provided.**

If you are interested in participating in this study, or if you have any further questions, please respond via email: [emily\\_gardiner@sfu.ca](mailto:emily_gardiner@sfu.ca) or phone: **778 782 6746**.
