

Siblings of People with ASD and related disorders

Unique Concerns, Opportunities and Relationship

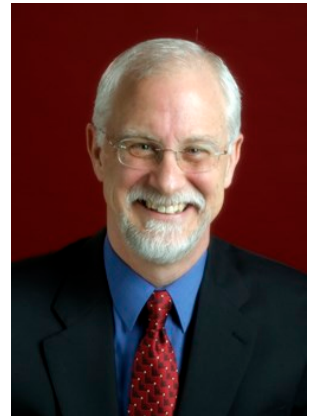

with **Don Meyer** -*Director, Sibling Support Project*

Don Meyer is an influential speaker, and author and is also the creator of innovative programs for families of people with special needs.

As the award-winning director of the **Sibling Support Project**, Don has extensive experience and a wealth of knowledge to share with families and has presented on issues facing families of people with special needs all over the world.

Sibling relationships are often the longest lasting for an individual with autism and supports for siblings are critical; Don will focus on this element throughout his presentation.
