

# CALLING ALL YOUTH WITH AUTISM, CEREBRAL PALSY, OR CHRONIC PAIN!

We are looking for youth (12-18 years old) who live in British Columbia to participate in a research study to help us make participating in research from home more accessible.

## What will I be asked to do?

You will fill out short questionnaires on a smartphone, wear an activity monitor, and collect saliva samples for 14 days. This shouldn't take more than 20 minutes a day. At the end, you'll do a brief interview with a researcher about your experience.

## Where do I have to go?

All parts of this research study can be done from home or wherever you are normally spending your time.

## What will it cost me?

Nothing! We will give you everything you need to take part. You will receive up to \$60 in gift cards to thank you for your time.

If you are interested in participating or learning more about the study, please contact us at [mn.wharton@bcchr.ca](mailto:mn.wharton@bcchr.ca) or visit our microsite: <https://bcchr.ca/LivingLabatHome>
